# simplifying facilitation

## We can help

- **Introduction to Facilitation**  
Learn the basics of designing and running effective meetings and workshops.
- **Advanced Facilitation**  
Develop your skills to help you work with more challenging and diverse groups.
- **Facilitation Master Classes**  
Hone your expertise to allow you to work with any group in any situation that you encounter.
- **Consulting & Event Design**  
Let us help you communicate your important messages simply, clearly and with great confidence.

## FACILITATION TRAINING TO HELP YOU DO WHAT YOU DO BEST

You've got challenges ahead, and you've got plans in place to deliver against the expectations of all of your stakeholders. Our job is to help you communicate those messages in ways that are clear, simple and memorable. That's what we've been doing for 10 years, all around the world, with clients large and small. Whether it's a new product launch in Europe, a stakeholder conference in Beijing, a strategy cascade in South America or a public consultation event in the UK, we can help you to deliver.

We've worked with Capita, EDF, Ford, Electrolux, The Environment Agency, Vodafone and many other public & private organisations and they will tell you how our skills allow them to make the most of their experience in their field. We won't tell you how to do your job; we just make sure that we do ours. If you've got an important message to get out there- we can help you to deliver.
