- **The commercial skills suite**  
Build commercial thinking and capacity to create and develop profitability for your business.
- **The leadership skills suite**  
Hone hard and soft skills that will allow today's managers become tomorrow's leaders.

## HELPING YOUR MANAGERS DELIVER FOR YOUR BUSINESS TODAY

You have skilled managers at the heart of your business and they have many of the skills that you need, but you know they need regular 'refreshers' to help them to deliver today and tomorrow. We have 25 years experience of running management development in some of the biggest organizations in Europe. That gives us insight and a breadth of vision that we can share, to help you develop a best in class programme for your key management talent.

Our job is to help you build core skills

throughout your organisation, in ways that are clear, powerful and memorable. We've worked with the likes of Peugeot, Capita, EDF, Ford, Zurich Insurance, Electrolux, Vodafone, Mercer and many other public and private organisations since 1986.

Our clients trust us with their key employees and if you've thought that it was time for a fresh look at what you do, maybe we can help you to deliver.

Jim Harvey
